SayGames Android 4.4 + Version: \$2.1.2 Sand balls (MOD, Unlimited Coins) - arcade game with puzzle elements whose game is based on the laws of physics. And so, in each level, your task will be to try to get as many balls to the finish line as possible, which is not easy to do, because in addition to having to make your way, use your finger to make aisles and tunnels, and only one mistake can deprive you of a significant portion of the balls, so still the whole place is crammed with obstacles. The main advantage of sand balls mod APK is that passing the level you will need not only to smash your head paving the optimal path, but also to show the skill of breaking through fragments. Updated to version 2.1.2! Balls? - platformer with minimalist graphics and simple control. This game allows the user to control one of the geometric shapes. The essence of the game is a set of points that you need to run your managed objects to other objects. In addition, you will have to contend with enemies who want to spoil the figure, as well as collect additional funds. All this will help to enjoy the process and pass the time.
